The Organizational Culture

TALIZIDUHU NDRAHA
Culture is the wealth of a nation. Indonesia is rich in its culture. However, culture is often made as an excuse by politicians and officials. For instance, if official want to defend the status quo, reject new value, therefore the excuse is “not in accordance with the national culture”.

Organizational culture is an attitude, belief, and feeling that is basic, give direction, and give a meaning to the behavior and organization process in an organization system, which include the aspiration of the organization or the norms that is in effect in the organization of the people.

This book, specifically is for students in the Program for the Study Magister Management and student at the Faculty of Social Science and Politic.
